

GREATER GOOD SERVICE DAY

GIVING BACK TO THE COMMUNITY

MARY'S KITCHEN 8:00 AM MONDAY FEBRUARY 17, 2014

At Source Consulting, we hold a high standard for corporate and community responsibility. We are a for profit company trying to make an impact in the non-profit sector. As a part of our corporate Greater Good Initiative, our team (plus friends, family, customers, and other willing volunteers) dedicates two normal workdays each year to volunteer and help alongside organizations working for the 'greater good'. We call these volunteer days: Greater Good Service Days.

The first Greater Good Service Day of 2014 will be at Mary's Kitchen in Orange, CA.

In 1984, 82 year old Mary McAnena helped a homeless woman in Hart Park, Orange, California. This was the beginning of Mary's Kitchen. Mary's home became the scene - volunteers helped with the cooking, transported the food to Hart Park and served the men, women and children who were homeless and in need.

Mary's Kitchen is staffed 100% by volunteers and underwritten by private donations from individuals, churches, local corporations, grocery stores, caterers, students from local schools including Chapman University and others. On average 100 people come to the Kitchen each day for breakfast, a hot meal, a bag lunch to go for dinner, hot showers, clean clothes and attention from caring volunteers who give them hope.

The team at Source Consulting is proud to work alongside this great cause! More information about the kitchen can be found at: <http://www.maryskitchen.org/>
